**Premium Economy** seats are bigger and wider and there's a separate cabin dedicated to Premium Economy passengers. With ample leg room and an additional two degrees of recline, you can happily stretch out and notice the extra comfort.

**Flying in Economy** is all about fun and value, from the free amenity kit to the seat back TVs. With an average seat pitch of 31", the seats are designed to maximize legroom, so you'll have plenty of room to relax and stretch your limbs during your flight.
